Striker-Fired Pistol Armorer

Synopsis

This course is designed to provide students with the knowledge of almost complete disassembly and reassembly of a common striker fired pistol used by Missouri law enforcement. Students will be taught methods of identifying modifications, determining effects of modifications, determining wear-based replacement needs, and identifying issues related to common duty gear interactions.

C.L.E.E. Credit

Technical Studies (8 hours)

Cost

\$250.00 / person

Note

This class is limited to twelve students. Payment is required to secure a seat. Students are required to be competent and safe firearms handlers. This armorer course is not sponsored by any specific brand of firearm. Firearms will be provided for students to use during training. No live firearms or ammunition is permitted in this training course.
